

Letter to Village Residents

What a wonderful time of year it is indeed. As we take the time to ponder the days ahead, let us be thankful for the days passed. Although we have not yet reached spring, plans for warmer days are on the horizon. With that in mind, I would like to invite all who plan to have projects at your home this year to give me a call to discuss your projects. Zoning is a very important part of the planning process and I want you to know that I am readily available to answer any questions you may have about your upcoming projects. Zoning provides guidelines to protect property values and enhance the physical appearance of the community as well as safety, health and welfare for the people who live in our little town.

The Mayor and Council members have been working diligently to set “mile markers” for the betterment of our community. Countless hours have been spent working on programs for outreach, safety, and economic development, as well as polishing and rewriting ordinances for the sake of all our future here. On behalf of all the folks that have given their time, we would like to encourage all of you to get on board and help with obtaining these goals. “Many hands make light work”, so if everyone does a little, we can accomplish a lot. Let’s reach those little goals and support one another all that we can. “Rome wasn’t built in a day”, but it was built. We can focus on the big picture, but don’t be discouraged if we don’t reach the finish line this year.

I can be reached by phone at 330-552-7159.

Have a Happy New Year!

Sincerely,

James A. Brandenburg - Zoning Inspector
